a fascinating biography of the vietnamese icon ho chi minh

historical experience shows that any country or nation that wants to survive develop and steadfast with its era must have its own political ideology or must choose the appropriate ideology at the same time historical experience also shows that this choice is only correct when on the one hand comes from the reality of the country from the personality of the nation from the earnest desire of the people and on the other hand must be consistent with the law of the inevitable and objective development of the society ho chi minh s political thought is the development path of the vietnamese revolution not only in the history of national liberation but also in the era of integration main author asso prof dr phm ngc trâm edited by dinh tran ngoc huy mba international university of japan

a thoroughly researched and elegantly written account of what is arguably the most important topic in modern vietnamese political history quinn judge s sources allow her to sketch a vivid nuanced portrait of ho chi minh and to unravel the complex interplay of

domestic and international forces that shaped the historical emergence and development of vietnamese communism peter zinoman university of california berkeley

to grasp the complicated causes and consequences of the vietnam war one must understand the extraordinary life of ho chi minh the man generally recognized as the father of modern vietnam duiker provides startling insights into ho s true motivation as well as into the soviet and chinese roles in the vietnam war

some will be shocked to find out that the united states and ho chi minh our nemesis for much of the vietnam war were once allies indeed during the last year of world war ii american spies in indochina found themselves working closely with ho chi minh and other anti colonial factions compelled by circumstances to fight together against the japanese dixee bartholomew feis reveals how this relationship emerged and operated and how it impacted vietnam s struggle for independence although the oss did not bring ho chi minh to power bartholomew feis shows that its apparent support for the viet minh played a significant symbolic role in helping them fill the power vacuum left in the wake of japan s surrender her study also hints that had america continued to champion the anti colonials and their quest for independence rather than caving in to the french we might have been spared our long and very lethal war in vietnam based partly on interviews with surviving oss agents who served in vietnam bartholomew feis s engaging narrative and compelling insights speak to the yearnings of an oppressed people and remind us that history does indeed make strange bedfellows

ho chi minh explores the life of this globally important twentieth century figure and offers new insights into his lengthy career including his often forgotten involvement with british intermediaries in 1945 46 and with the united states in 1944 45 ho was the father of his nation a major protagonist in the cold war and anti colonial struggle and the promoter of a distinctive vietnamese form of communism this biography charts his life from his early years and education in europe to his establishment of the revolutionary pro communist movement the viet minh and his subsequent rise to power placing important emphasis on his role as a military organizer while stressing his preference for diplomatic solutions this book contains detailed analysis of the complex talks with france and failure to prevent the franco viet minh war in 1946 it also follows ho s complex relationships with america china france and russia and explores the vietnam war and his legacy in addition to providing extensive coverage of the 1954 geneva conference the rivalry between ho and first secretary le duan and the 1968 tet offensive ho chi minh is also the first english language biography of ho to pay close attention to his attitude to women and their role within the communist party it is the perfect introduction for students of vietnamese history and twentieth century history more broadly

recounts his meetings and talks with ho chi minh from 1945 to 1966

in this portrait not only of the man but of his people and of the cause to which he dedicated

his entire life reinhold neumann hoditz traces ho chi minh s career from his birth in 1990 to his death in 1969 special attention is given to his early political training in paris his role with guerrilla insurgents in the montagnard countryside his visits to china and russia and events which led to the decisive battle of dienbienphu in 1954 and the revolt of the peasants two years later the autobiographer has drawn extensively on north vietnamese sources and ho chi minh s own works to present a detailed picture of the intriguing figure who was known as nguyen tat than nguyen ai quoc and uncle ho a wide variety of photographs richly chronicles the leading personality in a drama that has its roots in the nineteenth century and continues to this day

provides some limited insight into the situation of young people involved in prostitution in viet nam

the first major synthesis of the war since 2001 drawing upon a host of newly declassified documents presidential tapes and overlooked foreign sources to give the most comprehensive look to date of the war that still haunts america

during the vietnam war the u s sought to undermine hanoi s subversion of the saigon regime by sending vietnamese operatives behind enemy lines all the commandos were killed or captured with many reporting false information this book traces the rise and demise of this secret operation

ask most americans and they ll tell you that presidential campaigns get dirtier and more negative with every election this text suggests that this may not be as true as we think and shows that over the last dozen elections negativity may have been well publicised but hasn t increased

catton treats the diem government on its own terms rather than as an appendage of american policy focusing on the decade from dien bien phu to diem s assassination in 1963 he examines the vietnamese leader s nation building and reform efforts particularly his strategic hamlet program which sought to separate guerrilla insurgents from the peasantry and build grassroots support for his regime catton s evaluation of the collapse of that program offers fresh insights into both diem s limitations as a leader and the ideological and organizational weaknesses of his government while his assessment of the evolution of washington s relations with saigon provides new insight into america s growing involvement in the vietnamese civil war

Getting the books Ho Chi Minh A Life now is not type of inspiring means. You could not lonesome going	like ebook buildup or library or borrowing from your contacts to door them.
